- 2.5+ Year experience of **MVC .Net & Dotnet Core**.

Experience

- **Software Engineer** Jan 2022 – Feb 2024
DynamicBits
It took a team of ardent, persistent and self-driven professionals to create a difference in the Local Software Development market. DynamicBits aims to build customized solutions that meet the needs of local businesses. Commitment to work, integrity and professionalism drive the DynamicBits team.
- **Software Engineer** Mar 2024 – Present
White Wings Consulting
I have designed, developed, and maintained software applications with a focus on performance, scalability, and security. A key part of my role was integrating secure payment solutions to enhance transaction capabilities while ensuring compliance. I worked with cross-functional teams to deliver seamless payment gateways and improved user experience. My efforts in code reviews, best practices, and agile methodologies helped optimize workflows and maintain high-quality standards
