FULL STACK DOTNET DEVELOPER

Results-driven Software Engineer with experience in full-stack development using .NET and React. I specialize in building scalable web applications with ASP.NET Core and Web APIs, and have successfully delivered solutions in healthcare, telecommunications, and e-commerce. Proficient in writing clean code with C#, SQL Server, and React.js, I follow industry best practices and utilize Git for version control. Experienced in Agile methodology, I thrive in collaborative environments. Known for my quick learning and problem-solving skills, I am eager to contribute my technical expertise and passion for innovation to a dynamic development team.

EXPERIENCE

Bahria Town • Islamabad, Pakistan • 03/2025 — Present

Full Stack .NET Developer

Currently working as a Full-Stack Developer.

- Solely responsible for replicating and redeveloping the Bahria Town Customer Management System (CMS).
- The existing system, originally developed in *Lotus Notes*, is being rebuilt from scratch using .NET Core 8 for the backend, following Clean Architecture principles and best practices.
- The frontend development is in progress, including an admin panel using Blazor and a customer panel using React.js.

Reactive Space Pvt. Ltd. • Bahria Town Phase 4 Rawalpindi, Pakistan (Remote) • 12/2023 — 12/2024

Full Stack .NET Developer

Working as a Full-Stack Developer both Backend and Frontend.

- Full-Stack Developer experienced in building enterprise applications like Sealink and e-commerce platforms using N-tier and Clean Architecture. Skilled in developing scalable REST APIs with .NET Core, integrating Entity Framework Core and Dapper for efficient data access.
- Proficient in SQL Server and PostgreSQL, optimizing queries with LINQ and stored procedures. Collaborated in Agile Scrum teams, contributing to ERP systems and delivering business-critical modules with clean code practices.

Enabling Systems Pvt. Ltd. • Rawalpindi, Pakistan • 06/2023 — 10/2023

Full Stack .NET Developer (Internship)

Worked as a Full-Stack Developer

- Led projects focused on modern web development and cloud integration. Redesigned the company portal with responsive UI improvements and optimized database performance through enhanced stored procedures.
- Developed an APK management system using .NET Razor Pages, integrating AWS S3 for storage and applying Clean Architecture principles. Collaborated with senior developers to enhance existing applications, improving both UI and backend performance.
- Gained hands-on experience in full-stack development, from database design to frontend implementation.

EDUCATION PROFESSIONAL EXPERIENCE

Bachelor's Degree in Software Engineering

Virtual University Of Pakistan • Rawalpindi, Pakistan • (GPA: 3.24)

- Got 4 out 4 GPA in FYP.
